INSPECTION OF COMMERCIAL FEEDING STUFFS

Made for the
STATE DEPARTMENT OF AGRICULTURE

The inspection of commercial feeding stuffs reported in this bulletin was made under the direction of Honorable Andrew L. Felker, Commissioner of Agriculture. Mr. E. D. Sanborn, State Inspector, collected samples of 351 brands of feedings stuffs which were offered for sale in the State during the year ending May, 1930.

THE LAW

The New Hampshire law entitled an Act to Regulate the Sale of Concentrated Commercial Feeding Stuffs requires every manufacturer or dealer who shall sell or offer for sale any concentrated commercial feeding stuff to furnish with each package a clearly printed statement certifying the net weight of the feed contained in the package, the brand name or trademark under which the feed is sold, the name and address of the manufacturer, the ingredients of which the feed is composed, and a chemical analysis stating the minimum percentage only of protein, fat and carbohydrates, and the maximum percentage only of crude fiber. The chief purposes of the law are to protect the consumer against the careless or dishonest manufacturer and to enable him to buy more economically the feeds best suited to his needs. It requires that full information be available to the purchaser both as to the guaranteed analysis of the feed and the materials of which it is composed. The law when properly enforced prevents misbranding, adulteration and other fraudulent practices. The dealer who offers for sale a feeding stuff which has not been registered or which is not guaranteed in compliance with the law does not merit the consumer's patronage. The consumer's co-operation in refusing to buy any feed which does not conform to the law in every respect will not only help in the enforcement of the law but will at the same time afford himself its protection. The State official charged with the enforcement of the feeding stuffs law is the Commissioner of Agriculture.

CLASSIFICATION

In classifying the feeding stuffs here reported the class names under which they were offered to the consumer have been used. Table 1 shows the number in each class, the average price per 100 pounds, the average per cent of protein, the number of pounds of protein per \$1.00, the number deficient by one-half per cent protein, the average per cent of fat, the number of pounds of fat per \$1.00, and the number deficient by one-fourth per cent fat.

NUMBER OR SAMPLES FAILING TO COMPLY WITH THE LAW

Only 163 of the 351 brands analyzed, complied with the law in every respect. The 188 which did not fully comply with the law violated it on 237 counts. Sixty-three brands or 17.9 per cent were deficient in protein; 46 of these or 13.1 per cent were deficient one-half per cent or more. Forty-two brands or 12.0 per cent were deficient in fat; 28 of these or 8.0 per cent were deficient one-fourth per cent or more. Fourteen brands contained an excessive amount of crude fiber. Fifty-eight brands were deficient in carbohydrates. Fifty-seven brands were offered for sale without a carbohydrate guarantee. On three brands the sliding scale guarantee was used. The use of the sliding scale guarantee is a violation of the law and in the following pages only the maximum guarantee is shown when the sliding scale guarantee has been used. In the tabulation of the analytical data deficiencies of one-half per cent or more of protein and of one-fourth per cent or more of fat are shown in italics.

REQUESTS FOR THE ANALYSIS OF FEEDING STUFFS

The Department is frequently asked to make an analysis of a feeding stuff for the consumer. This service is gladly rendered when the circumstances warrant it. Samples should be drawn from at least five bags, preferably ten, in a manner to insure that the small lot sent for analysis is accurately representative of the larger lot from which it is taken. A one-pound sample is sufficient for the analysis. It should be sent in a glass jar or tin box to prevent the loss of fine particles and a change in the moisture content. In order that the Department may know whether or not the manufacturer and the dealer are complying with all the requirements of the law, the following information should be submitted concerning each sample:
